CAREER OBJECTIVE

I'm Arya Singh, a 3rd-year Computer Science student passionate about AI, Software Engineering, and Web3. I've worked as a Software & Frontend Developer at Azienda, building platform features and contributing to growth. I have hands-on experience with AI, RAG, and LLM-based projects. I'm Oracle and Salesforce Agentforce certified, and currently learning docker. I'm currently seeking AI Engineer and Software Engineer internship or SDE opportunities.

EDUCATIONAL QUALIFICATION

Qualification	University/Board	Year/Batch	Percentage/CGPA
B.Tech. (CSE)	NIMS University, Jaipur	2023-2027	8.68 CGPA (4 th sem.)
12 th	Bihar Secondary Education Board	2022	72%
10 th	Bihar Secondary Education Board	2020	80%

CERTIFICATE COURSES

- **Professional Certificate in DevOps** by Udemy, September 2025
- **Application of AI** by Great Learning, August 2024.
- **Software Testing** by Great Learning, July 2024.
- **Python and SQL for Data Science** by Scaler, July 2024.
- **Design App** by Great Learning, June 2024.
- **Introduction to Web Designing Certificate** by Great Learning, June 2024.

- **Introduction to ML** by Great Learning, June 2024.
- **Front End Development** by Great Learning, June 2024.
- **SQL for beginners** by Scaler, May 2024.

PROFESSIONAL EXPERIENCE

- **AI ASSOCIATE, AZIENDA** July 2023- Present
 - DesDesigned and deployed Generative AI models tailored to business use cases.
 - Fine-tuned LLMs using internal datasets; integrated document processing with Azure Form Recognizer.
 - Built MLOps pipelines using Azure DevOps and GitHub Actions.
 - Implemented RAG pipelines using LangChain and Azure Cognitive Search.
 - Developed lightweight APIs using FastAPI and Flask for AI service deployment.
 - Maintained clean, production-grade code with detailed model evaluation reports.

PROJECTS

- **Placement portal:**

Developed a PlacementHub web application using Flask to streamline campus recruitment processes. Implemented a role-based system; admin, company and student, for secure and organized access control.
- **SharePoint- based RAG System:**

Built knowledge retrieval from document repositories using Azure Document Intelligence, Langchain, and Cognitive Search.
- **AI Workflow for Document Processing:**

Implemented pipeline using Azure Form Recognizer, text chunking, embedding, and vector search for enterprise insights.

TECHNICAL SKILLS

- Python (AI/ML, APIs)
- Flask, FastAPI
- JavaScript/ TypeScript
- HTML, CSS
- Prompt Engineering, RAG, Vector Databases
- Azure OpenAI, Cognitive Search

- API Management, Azure Key Vault
- Azure DevOps, GitHub Actions, Terraform
- Document Intelligence, SharePoint Integration

SOFT SKILLS

- Communication skill
- Leadership skill
- Strategic Thinking
- Analytical Thinking

LANGUAGES

- Hindi: Native
- English: Advanced
